CSV. A TEAM AT THE SERVICE OF THE CITIZENS

The CSV Mäertert-Waasserbëlleeg fulfils its responsibility as a constructively critical opposition party with full enthusiasm.

A big thank you to our local councillors Cilly Hirtt, Alain Scheid and François Warnier for their constructive commitment.

This in dialogue with the citizens of our municipality, with an open ear for the local associations and businesses and a vision for a liveable and sustainable municipality.

Social issues have always been close to our hearts. We want an inclusive society in which everyone has a place, a society that organises itself in such a way that no one is excluded from the start and that tries to include everyone, regardless of age, nationality or disability.

A lot can be done in the community: Even in opposition: we are pleased that the Board of Aldermen has also taken up our ideas, such as the introduction of 20 zones in residential areas or the establishment of a bicycle washing station.

Präsident CSV Mäertert-Waasserbëlleeg

We would like to thank all our representatives in the commissions for their constructive work. Special thanks go to Fernand Hopp who, as secretary of the environmental commission, has been working with great dedication and commitment for many years in the fields of nature conservation and waste management as well as for the success of the Repair Café and the car-free experience day.

In this publication you can learn more about our committee members.

Feel free to contact us at any time and follow us on Instagram and Facebook.

ENVIRONMENT

BECAUSE WE THINK AHEAD

I have been involved as a citizen and as a member of CSV for a number of years, including on the Environmental Advisory Committee.

Even if we as an advisory committee do not find all our suggestions and opinions heard by the council, together with motivated representatives of the other parties we have been able to realise a number of points that promote more sustainability than the watering can principle of subsidies and bonuses from the state government: for example, our second-hand stand in recycling has already given many bicycles, toys and electrical appliances a second life and thus reduced a lot of waste.

CHILDREN AND FAMILY

GROW TOGETHER

Our community is constantly growing. In the meantime, we have passed the 5000-inhabitant mark. More and more children will attend our schools and care structures. A lot has been invested in recent years. We will continue to do our best to make our municipality child and family friendly in the future and continue to invest in schools, Maison Relais, safe playgrounds and sports infrastructure. Children are our future.

STRENGTHEN CLUBS

WE MOVE PEOPLE

Without our small associations in the two villages with their many events, the coming together of fellow citizens of different cultures and nationalities would not be possible. Therefore, it is important to maintain the club life in sports, culture and other communities in our municipality and to bring people together also in the future.

MORE SAFETY

TOGETHER FOR MORE SAFETY

My name is Carlo and I am 67 years old, I have been a member of the CSV for 25 years and a member of the LCGB for 46 years. In the municipality of Mäertert-Wasserbëllig I represent the CSV in the sports committee and in the family and 3rd age committee. For the future, I would like to see more done for the safety of local residents. My greatest wish would be that no long-distance lorries drive across the border bridge through our 2 villages.

CLOSE TO THE PEOPLE, STRONG IN THE COMMUNITY

STRONG TOGETHER

I feel good when I can be among people and discuss things with them. For me it is important to listen and talk together and to look for solutions together. I am committed in the CSV to take the interests and concerns of children and their parents seriously and to stand up for them and make a difference. Their interests and concerns should be incorporated into local politics.

EDUCATION AND EQUAL OPPORTUNITIES # TOGETHER FOR THE FUTURE

As a mother of two sons and a substitute teacher in primary school, the children in the community are particularly close to my heart. But equal opportunities for our fellow citizens, big and small, also play an important role in the future of our community. I am involved in the CSV to actively contribute to life and coexistence in the community.

INTEGRATION # DIVERSITY WORKS

I am interested in the problems of integration because I myself come from Ukraine and know how difficult it can be.

Especially in the beginning it is very important to get support and help, to take opportunities to learn languages and to get to know new people, a new culture and traditions.

Also with everyday little things, as well as information about public transport, recycling, the routine with documentation, the offices, etc.... The aim is to help everyone find their own successful integration path.

SPORT FOR YOUNG AND OLD # SPORT FOR ALL

Sport is an important and integral part of everyday life in our society. Sport not only serves physical fitness, but also has a health-promoting effect in education and training programmes. Sport is an indispensable factor in value orientation in all population groups. Exercise is important for young and old.

YOUTH IN THE COMMUNITY # YOUR OPINION COUNTS

Youth in the community is a big issue that should not be forgotten. That is why I am committed in the CSV to involve our youth in the decisions of our community and to work together with these young people to shape a future that is achievable for all. It is important to me that young people have a say and a say in our decisions.

CSV

MÄERTERT-WAASSERBÉLLEG

MERRY CHRISTMAS AND A HAPPY NEW YEAR

The CSV Community Councillors, the President and all members of the C.S.V. Mærttert-Waasserbëlleeg Section wish you a Merry Christmas with your loved ones, a Happy New Year and, above all, good health!

IN THE COMMUNITY COUNCIL

Alain Scheid, Cilly Hirtt, François Warnier
